

HAIB FIRST TAKE – HAIB FIRST TAKE – HAIB FIRST TAKE

04-August-22

Q2 review and CC feedback

- **Q2 results were roughly in-line for sales while beating expectations on the bottom-line.** Chip shortages continue to burden growth, with the order overhang amounting to € 127m as of Q2. Still, organic growth was a solid c.10%, excluding FX and divestments in Russia. **Management expects to reduce the overhang to € 50m by the end of the year,** as chips become increasingly available and product re-designs take effect. **This should support growth in H2'22.**

Net margin	3.9%	3.7%	3.5%	3.4%	+ 0.5 pp	3.5%	+ 0.3 pp	0.0%	3.4%	- 3.4 pp

- IoT Europe (50% of sales) continues to be **most affected by chip shortages**, with € 67m of overdue orders attributable to this segment, while also impacted by divestments in Russia (€ 6m revenue impact in Q2). Still, orders in this segment remained strong, **reflected in a Q2 book-to-bill of 1.36x**, underpinning healthy demand. The segment EBITDA margin rose by 1.3pp yoy to 12.7%, as Kontron managed to pass on most of the component price inflation to customers, highlighting its bargaining power as single source supplier with lock-in effects. **Margin strength in IoT Europe was the main reason for the EBITDA outperformance vs. expectations** on group level.
- IoT Americas (9% of sales) **benefitted from FX effects** of almost € 3m (on revenue), though the product mix was weak, leading to soft margins. Importantly, **the Avionics end-market is finally reviving post Corona**. Backed by rising order intake, end-market revenue is set to rise to \$ 20m this year and \$ 40m in FY'23E vs. \$ 12m in 2021, according to management. It is a 45% gross margin business, hence rising revenue should drive up segment profitability: management targets segment EBITDA margins of 5% in FY'22E and 10%+ in FY'23E.
- **Operating cash flow was again weak** (Q2: € -11m vs. € 14m a year ago) due to rising inventories, which reflect non-shippable products and security stocks. Management expects to recover € 50m of w/c by the end of the year, **targeting € 20-50m positive operating cash flow in FY'22E** (vs. € 95m in FY'21).
- Kontron is in advanced negotiations with potential IT Services buyers and targets a **final yes / no decision before the end of Q3**. Several Private Equity buyers have dropped out due to rising interest rates; a strategic buyer is hence more likely. The company confirmed it would not sell "at all cost", which to us means that **no deal will happen, if offers are below € 550m / € 600m**.
- **FY'22E guidance confirmed** (€ 1.5bn sales / € 150m EBITDA / in-line with eCons): expectations for a stronger second half are based on (I) a reduction of the order overhang, (II) avionics growth and (III) margin improvements in IT Services as demand for implementation services should naturally rise following strong demand for (low-margin) hardware in H1'22. Sound execution **could yield upside** to our conservative FY'22E estimates (€ 1.43bn sales / 136m EBITDA).

1. General Information/Liabilities

This research report has been produced for the information purposes of institutional investors only, and is not in any way a personal recommendation, offer or solicitation to buy or sell the financial instruments mentioned herein. The document is confidential and is made available by Hauck Aufhäuser Lampe Privatbank AG, exclusively to selected recipients [in DE, GB, FR, CH, US, UK, Scandinavia, and Benelux or, in individual cases, also in other countries]. A distribution to private investors in the sense of the German Securities Trading Act (WpHG) is excluded. It is not allowed to pass the research report on to persons other than the intended recipient without the permission of Hauck Aufhäuser Lampe Privatbank AG. Reproduction of this document, in whole or in part, is not permitted without prior permission Hauck Aufhäuser Lampe Privatbank AG. All rights reserved.

Under no circumstances shall Hauck Aufhäuser Lampe Privatbank AG, any of its employees involved in the preparation, have any liability for possible errors or incompleteness of the information included in this research report – neither in relation to indirect or direct nor consequential damages. Liability for damages arising either directly or as a consequence of the use of information, opinions and estimates is also excluded. Past performance of a financial instrument is not necessarily indicative of future performance.

2. Responsibilities

This research report was prepared by the research analyst named on the front page (the "Producer"). The Producer is solely responsible for the views and estimates expressed in this report. The report has been prepared independently. The content of the research report was not influenced by the issuer of the analysed financial instrument at any time. It may be possible that parts of the research report were handed out to the issuer for information purposes prior to the publication without any major amendments being made thereafter.

3. Organisational Requirements

Hauck Aufhäuser Lampe Privatbank AG took internal organisational and regulative precautions to avoid or accordingly disclose possible conflicts of interest in connection with the preparation and distribution of the research report. All members of Hauck Aufhäuser Lampe Privatbank AG involved in the preparation of the research report are subject to internal compliance regulations. No part of the Producer's compensation is directly or indirectly related to the preparation of this financial analysis. In case a research analyst or a closely related person is confronted with a conflict of interest, the research analyst is restricted from covering this company.

4. Information Concerning the Methods of Valuation/Update

The determination of the fair value per share, i.e. the price target, and the resultant rating is done on the basis of the adjusted free cash flow (adj. FCF) method and on the basis of the discounted cash flow – DCF model. Furthermore, a peer group comparison is made.

The adj. FCF method is based on the assumption that investors purchase assets only at a price (enterprise value) at which the operating cash flow return after taxes on this investment exceeds their opportunity costs in the form of a hurdle rate of 7.5%. The operating cash flow is calculated as EBITDA less maintenance capex and taxes.

Within the framework of the DCF approach, the future free cash flows are calculated initially on the basis of a fictitious capital structure of 100% equity, i.e. interest and repayments on debt capital are not factored in initially. The adjustment towards the actual capital structure is done by discounting the calculated free cash flows with the weighted average cost of capital (WACC), which takes into account both the cost of equity capital and the cost of debt. After discounting, the calculated total enterprise value is reduced by the interest-bearing debt capital in order to arrive at the equity value.

Hauck Aufhäuser Lampe Privatbank AG uses the following three-step rating system for the analysed companies:

Buy: Sustainable upside potential of more than 10% within 12 months
Sell: Sustainable downside potential of more than 10% within 12 months.
Hold: Upside/downside potential is limited. No immediate catalyst visible.

NB: The ratings of Hauck Aufhäuser Lampe Privatbank AG are not based on a performance that is expected to be "relative" to the market.

The decision on the choice of the financial instruments analysed in this document was solely made by Hauck Aufhäuser Lampe Privatbank AG. The opinions and estimates in this research report are subject to change without notice. It is within the discretion of Hauck Aufhäuser Lampe Privatbank AG whether and when it publishes an update to this research report, but in general updates are created on a regular basis, after 6 months at the latest. A sensitivity analysis is included and published in company's initial studies.

5. Major Sources of Information

Part of the information required for this research report was made available by the issuer of the financial instrument. Furthermore, this report is based on publicly available sources (such as, for example, Bloomberg, Reuters, VWD-Trader and the relevant daily press) believed to be reliable. Hauck Aufhäuser Lampe Privatbank AG has checked the information for plausibility but not for accuracy or completeness.

6. Competent Supervisory Authority

Hauck Aufhäuser Lampe Privatbank AG are under supervision of the BaFin – German Federal Financial Supervisory Authority Bundesanstalt für Finanzdienstleistungsaufsicht), Graurheindorfer Straße 108, 53117 Bonn and Marie-Curie-Straße 24 – 28, 60439 Frankfurt a.M.

This document is distributed in the UK under the Temporary Permission Regime for EEA firms and in compliance with the applicable FCA requirements.

7. Specific Comments for Recipients Outside of Germany

This research report is subject to the law of the Federal Republic of Germany. The distribution of this information to other states in particular to the USA, Canada, Australia and Japan may be restricted or prohibited by the laws applicable within this state.

8. Miscellaneous

According to Article 4(1) No. i of the delegated regulation 2016/958 supplementing regulation 596/2014 of the European Parliament, further information regarding investment recommendations of the last 12 months are published under:
